22

12 - 57/467 a R7 NGC MS62 BN The Federal Government, A National Currency, Free Trade and Human Rights 1862. Two rare and underrated dies, just the fourth example of this variety we have seen offered and not included in the Tanenbaum collection. An EF+ sold for $1,020.54 in our November 2004 sale. From the Francis Toth collection. (2000-3000)

17 - 83/264 a R5 EF+ Very well struck for variety on a slightly rough planchet as struck. 1863 Pay To The Bearer One Cent. Two scarce dies. From the Jon Harris collection. (100-150)

18 - 87/ 87 a Unlisted NGC XF45 BN With small planchet clip and a few light scratches. Very rare and unlisted Single Die Double Header of 1863 dated Indian Head. One of the rarest types of Civil War tokens. These are normally thought to be the work of idle hands at the manufacturer. A token was struck uniface against another blank planchet or smooth surface then flipped over and struck again in the same manner. This usually results in the side first struck being somewhat squashed or distorted as on this example. They can also result from an odd set of striking errors which would normally result in the same type of appearance. Since this piece is heavily circulated after manufacture it can be assumed to be an error rather than an intentional oddity that would have been saved or sold to a collector. (750-1000)

19 - 96/284 b R9 AU Trace Bright and a bit weakly struck at centers. 1864 Indian Head signed Key Phila in headband with distinctive eagle struck in Brass. This is the single Patriotic use of reverse die 284, just the third we have seen offered. From the Steve Tanenbaum, Cindy Grellman-Wibker and Jack Detwiler collections. (1000-1500)

20 - 97/389 d R6 MS62 30% Bright. Millions For Contractors Not One Cent For The Widows struck in Copper-Nickel. A similar example brought $167.77 in our December 2008 sale. (200-300)

21 - 98/291 a R5 MS63 20% Red struck from clashed reverse die with associated reverse weakness at center. Union and Liberty One Country. From the Steve Tanenbaum collection earlier from Gary Pipher. (150-200)

22 - 127/295 a R9 MS63 Or a bit better 20% Red. Lincoln 1864 Freedom. Very rare die combination in Copper, this is only the second example we have seen offered publicly in the last twenty years. A MS62 in my July 2007 sale realized $751. Dewitt AL 1864-58 From the Steve Tanenbaum collection earlier from Gary Pipher October 1980. (1000-1500)

23 - 133/458 b R5 AU+ 20% Bright holed as nearly always. Struck from the usual worn die state. Lincoln and Liberty Good For Another Heat with ax in log. Dewitt AL 1864-43 (200-300)

24 - 136/397 a R1 MS62 20% Red. Beware "Copper Head" 1863 with coiled snake. Always popular. From the Jon Harris collection. (200-300)

28 - 155/431 a R4 MS63 20% Red. Indiana Primitive with Value Me As You Peas reverse. An AU+ with trace red realized $247.50 in our March 2010 auction. From the Cindy Grellman-Wibker collection. (300-400)

29 - 160/417 a R4 NGC XF45 BN Liberty For All 1864 with eagle perched on cannon. Struck by Mossin and Marr of Milwaukee. (100-150)

30 - 163/352 a R2 MS64 40% Red. Union Army & Navy with shield and crossed cannons. From the Jon Harris collection. (75-100)

31 - 167/318 a R5 AU Union 1863 Army & Navy. Two scarce dies. (100-150)

32 33 39

32 - 168/168 a R9 NGC MS62 BN Cannon and cannon balls 1863 full brockage mint error. A brockage is created when a struck token adheres to a die and in effect becomes a die itself. The next blank planchet struck receives an incused image of the stuck token. The first few tokens struck in that manner will receive a crisp sharp strike as in this example. When the token creating the brockage remains stuck for a number of strikes its image will become weaker and more spread out with each strike. Errors in general and brockages in particular were a specialty of Steve Tanenbaum and this is an especially dramatic example. From the Steve Tanenbaum collection earlier from Bill Panitch. (2000-3000)

33 - 173/(Steel DIE) Unlisted AU Original steel die for George Washington First In War, First In Peace Patriotic Civil War token 173. One of only a handful of original dies still in existence, the only others that we are aware of are 123, 129, 131 and 153. All have been used at one time or another to make restrikes. Uniface silver restrikes of die 123. The 1939 CSNS tokens used the 129 die. Uniface White Medal and counterstamped restrikes of die 131. Primarily counterstamped Large Cents of die 153. And finally uniface Silver and Gold restrikes of die 173. A once in a lifetime opportunity (well maybe thrice) to acquire an actual Civil War token die. The Franklin die for Patriotic 153 sold for $7,700 in our March 2008 sale. The Lincoln die for Patriotic 131 sold for $5,000 in our October 2011 sale. This die produced a typical Civil War token compared to the other two, likely used to create tens of thousands of Civil War tokens while the others struck tokens in very limited quantities generally for collectors rather than for circulation. This die is massive weighing well over four pounds, 102mm tall and 70mm at its widest point. A product of Scovill Manufacturing Company of Waterbury Connecticut, they are well known for their well made and boldly struck tokens. One look at this die and you can see why. (4000-6000)

34 - 176/271 j R7 EF+ First In Peace, First In War 1863 Union For Ever struck in German Silver. Rare variety, and EF brought $160.60 in our March 2010 auction. (200-300)

35 - 178/266 a R3 MS63 10% Red more so on the reverse, struck on a larger than normal planchet but still with a normal weak date The Federal Union It Must And Shall Be Preserved 1863. From the Jon Harris collection. (50-75)

36 - 188/384 a R3 MS64 30% Red. Beehive Industry. Popular design and very scarce in Uncirculated condition, an AU+ with trace red sold for $127 in our October 2011 auction. From the Jon Harris collection. (200-300)

37 - 200/346 ao R8 MS63 Or a bit better with 50% Red. With a fairly large reverse planchet lamination from the top of the shield to the rim through part of the wreath and the AN in AND. Very neat and impressive mint error. New York 1863 Constitution And The Union. Very scarce obverse die. This die combination almost always struck over NY630W-1a Felix Civil War token as is this, much of undertype is visible with close study. (300-400)

38 - 206/320 a R1 MS63 Trace Red with attractive toning. The Flag Of Our Union 1863 Army & Navy. From the Jon Harris collection. (50-75)

39 - 210/413A b R9 EF With very small obverse stain. The Flag Of Our Union 1863 If Anyone Attempts To Tear It Down Shoot Him on the Spot Dix struck in Brass. Extremely rare reverse die with many fine die cracks visible throughout, likely the cause of its rarity. Still the only public sale we have seen and believed to be one of just four known. This is the only known use of this die in the entire Civil War series. Easily identifiable by the recut of the "S" in Spot. From the Steve Tanenbaum and Ken Bauer collections earlier from our July 2009 sale where it realized $3,384.44 and still earlier from our October 2002 sale where it brought $1,505 and earlier still purchased on eBay for $357.16 in March 2002. (3000-4000)

40 - 211/400 a R4 MS63 Trace Red. The Indiana Primitive version of The Flag Of Our Union. From the Jon Harris collection. (300-400)

41 - 220/322 b R7 AU The Federal Union It Must And Shall Be Preserved. Rare variety particularly this nice. From the Jon Harris collection. (75-100)

42 - 223/328 a R2 MS64 30% Red. Shall BY Preserved spelling error. From the Jon Harris collection. (75-100)

43 53 57

43 - 232A/403 a R9 VG Details With reverse dent. Struck on a larger than normal 22mm planchet. Extremely rare Indiana Primitive version of Scovill's Our Country die 231. Higgins' 232 die is a closer copy as he added the date 1864 just under the ornaments on this die. The date is weak on all examples and even more so here with just the top of the 8 and 6 visible with some effort. This is the only use of this die in the Store Card or Patriotic series and no more than 5 or 6 are known. The last example sold publicly was a retoned EF with small stain that brought $10,925 in Bowers and Merena's March 2003 sale. From the estate of Richard Rossa. (1000-1500)

An example of the -25B variety in raw EF with a couple light reverse scratches brought $2,500 in our December 2010 auction. From the John Ford collection. (3000-4000)

83 - NL R.R. 2V. Unlisted EF R. R. 2V. Good For 5 Cents signed Koehler struck in Copper 22mm. This type of Koehler reverse is used on many Civil War Sutler tokens. It has been suggested that this was issued for 2nd Regiment Volunteers of Tennessee possibly also known as Robinson's Regiment presumably because they were mustered in at Camp Dick Robinson in Garrard County, Kentucky. We see no reason to believe this is Confederate as has been stated elsewhere. This token is currently scheduled to be included in the Unidentified / Possibly Sutler token section of the next edition of the Sutler Token book. A 10 Cent example from the John Ford collection in similar condition brought $2,820. A 25 Cent piece also exists struck with a similar but different obverse die signed Koehler, all three are quite rare. (1500-2000)

All full brockage Hard Times tokens are very rare with no more than one or two known of any one die and in total no more than 25 examples of all dies. The late Steve Tanenbaum loved errors and in particular brockages and managed to amass thirteen examples. This example brought $661.25 in Stack's June 2004 sale. 419 - LOW 24 HT-38 R7 UNC Details 60% Red and quite striking and beautiful but with a tiny D counterstamped between the forehead and E in E Pluribus Unum. Very rare "Bushnell" token, this the NOT ONE CENT spelling error. Hard Times tokens HT-38-41, HT 53-55 and HT-59-60 have been long thought to be the work of Charles Bushnell and in more recent times by a collaboration of J. N. T. Levick and Henry Davenport. Regardless they were likely made around 1860 in quantities of 10 or fewer to create rarities. They are often found dark and porous, perhaps pickled or artificially aged. Beautiful and untreated pieces such as this are even rarer, and almost unheard of with this much red. The Ford specimen was said to be ex. Dunham and Miller but perhaps the pedigrees were switched somewhere along the way as evidence by the tiny D. These tiny D's are known on Hard Times tokens among other things and are thought to be a collectors identification mark used by William Forrester Dunham. He counterstamped nearly his entire collection including his 1804 Dollar! A NGC AU55 example of Low 27 / HT-41 sold for $3,910 in our February 2014 sale. As a class partial brockage strikes, while less spectacular, are rarer than full brockage strikes. They also better illustrate how a brockage is made. Unlike a full brockage the previously struck token was not stuck to a die but instead is not cleared from the striking area. It then overlaps a portion of the next blank planchet inserted and struck. 461 - LOW 130Aa HT-107A R8 NGC MS62 20% Bright. J. M. L. & W. H. Scovill Button Manufacturer. Waterbury Connecticut struck with a reeded edge. Quite rare and when available usually seen in low grade and / or damaged. The R7 Plain Edge variety may not exist. We sold an EF with many light scratches in our October 2011 auction for $600. From the John Ford collection. (2000-3000)

462 - LOW 133 / HT-311 R2 AU+ Smiths Clock Establishment, New York. An EF sold for $350 in our December 2012 sale. From the Arno Safran collection. (400-500)

463 - LOW 139 / HT-464 R6 VF S S B 1837 struck in Brass. Rare and enigmatic, another VF brought $1,400 in our June 2014. (1000-1500)

464 - LOW 141 / HT-335 R3 VF Ezra B. Sweet, Stoves & Kitchen Furniture, New York 1837. From the Ron Ward collection earlier from one of our March 2001 fixed price lists. (100-150)

466 - LOW 143 / HT-206 R4 AU Details Sharp but with a hairline scratch in the right obverse field. Bergen Iron Works, Lakewood New Jersey. Rarely seen this nice. From the Arno Safran collection. (100-150)

467 - LOW 143 / HT-206 R4 EF Details With some reverse scratches. Mint error Flip Over Double Strike on a larger than normal 24mm planchet. Bergen Iron Works, Lakewood New Jersey. A dramatic mint error making the eagle look more like a Peacock. From the Steve Tanenbaum collection. (400-500)

468 - LOW 145 / HT-356 R2 FINE Or so with typical weak strike. Bucklin's Book Keeping, West Troy New York. From the Arno Safran collection. (50-75)

469 - LOW 148 / HT-204 R1 VF T. Duseaman Butcher, Belleville New Jersey. (50-75)

470 - LOW 153 / HT-305 R1 EF Details Triple struck obverse die trial over 1841 Large Cent. Abraham Riker, New York with boots and shoes pictured. A unique die trial over a US Cent, the reverse is flattened from the multiple striking while the obverse is fairly nice with Liberty's profile plainly visible. Though we could find no date, Large Cent specialist Bob Grellman has determined not only is this an 1841 Cent it is the Newcomb 7 variety for that year. An important find. From the Steve Tanenbaum collection earlier from Chris Victor McCawley. (500-750)

471 - LOW 155 / HT-204B R5 VF Reverse rim bump and reverse scratches. T. D. Seaman, Belleville New Jersey. Very scarce variety, a VG+ brought $296 in our December 2012 auction. (300-400)

473 - LOW 172 / HT-75A R3 EF Details Holed as always with some hairline scratches. Off-Center mint error. Martin Van Buren struck in Brass. From the Steve Tanenbaum collection earlier from Chuck Kirtley February 1976. (150-200)

474 - LOW 176 / HT-434 R5 VF Details But uneven strike as usual with a few light scratches. Gustin & Blake 1835, Chelsea Vermont. The unevenness results in Chelsea VT and a number of stars being very weak or missing but unusual with full 1835 date. Distinguishing between Low 175 and 176 is difficult and we believe a Low 175 illustrates both varieties in Rulau. Refer to lot 318 in the Ford Hard Times sale for a well struck Low 176 and note the base of the T's in Stoves and Tin and base of E in Ware. (500-750)

475 - LOW 182 / HT-399A R8 EF Or a bit better. Charles W. Bender Philadelphia 1842 struck in Silver on a very thin planchet. Bender was the proprietor of the Star Hotel at 71 Dock Street. Rare merchant and very rare variety. An AU example of the more available German Silver variety realized $4,565 in our June 2005 sale. This very example brought $10,925 in Stack's July 2008 sale of the Dice-Hicks collection. From the Steve Tanenbaum, Dice-Hicks, John Ford, Dave Bowers and Don Miller collections earlier from Stack's October 1954 sale. (8000-12000)

477 - LOW 190 / HT-78 R4 AU 10% Bright holed as always. Martin Van Buren Democracy and Our Country struck in Brass. Very scarce this nice, another AU brought $777 in our December 2010 sale. (500-750)

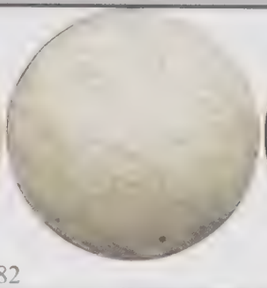
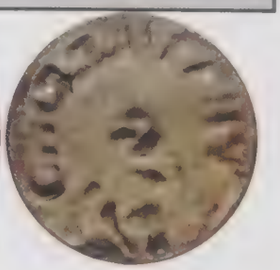
Hard Times Tokens





480 482 485

480 - LOW 209 / HT-228 R7 MS62 Trace Red. Bale & Smith Engravers & Die Cutters New York with George Washington on horseback. Exceedingly rare in any grade, Ford's NGC AU50 brought $4,406.25 in Stack's Bowers August 2013 sale. (6000-8000)

481 - LOW 227 / HT-403 R7 VF Details But weakly struck at center with residue at center of shield where a button shank or button was likely attached. Catch Club, Philadelphia Pennsylvania struck in Brass 27mm. As a group, despite the many variations, Catch Club tokens are rare. From the John Ford collection. (500-750)

482 - LOW 238C / HT-245C Unl AU Crumbie Soda Water Corner of Bowery & Fourth St. New York struck in German Silver with a blank reverse. This is an unlisted predecessor to W. D. Crumbie, likely father or older brother, located at a different address. James Crumbie, born circa 1810, is listed as a Druggist at 361 Bowery at the corner of Fourth in the 1835 City Directory then at 363 Bowery also at the corner of Fourth in the 1837, 1840 and 1841 directories. James was not found in the 1830 directory and no W. D. Crumbie listings were found in any of the four directories consulted. Rulau states W. D. Crumbie was at corner of Bowery and Houston in the 1844-6 time period. Very rare merchant with just two known, Ford's lone Crumbie being the other. Even the W. D. Crumbie token is missing from the most advanced collections. Rulau's listing for HT-245 / Low 238 seems to imply a not described reverse as the A sub variety is listed as Blank. A W. D. Crumbie with W. D. C. counterstamp on an otherwise blank reverse in EF was sold for $3,905 in our July 2012 sale. We called that HT-245B / Low 238C. In retrospect perhaps it was the true HT-245. It is the only example from either merchant seen without a completely blank reverse and while Adams seems to imply a Soda Water Check reverse for NY 169 and blank for NY 170, Miller corrects this to include W. D. C. incuse for NY 169. Regardless, this merchant is even rarer, much more squarely in the Hard Times period and is an important "new discovery". The Ford example mentioned above in a NGC AU55 holder but called HT-245A brought $2,820 despite being under described. We were not even aware it was unlisted until working with this piece. From the Steve Tanenbaum collection earlier from Bowers & Merena's September 1988 and June 1984 sales. (4000-6000)

483 - LOW 245 / HT-258 R4 NGC MS62 20% Bright. Doremus, Suydam & Nixon, New York. With 37 & 39 Nassau Street address and signed Bale N.Y. Very rare this nice, an AU with tiny rim nicks sold for $192.50 in our October 1999 sale. From the John Ford collection earlier from F. C. C. Boyd November 1954. (750-1000)

484 - LOW 245C / HT-259A R3 FINE+ Doremus, Suydam & Nixon 39 Nassau, New York. (100-150)

485 - LOW 246 / HT-408 R8 EF S. Feather G 12 1/2 Cents with incused reverse as made on a Brass planchet. Long considered to be from Philadelphia, current research places Solomon Feather a hotelkeeper in Norristown Pennsylvania beginning in 1840. From the Steve Tanenbaum, Dice-Hicks and Troy Wiseman collections earlier from Stack's January 2009 sale where it realized $2,760. (2000-3000)

486 490 491

486 - LOW 247 / HT-260 R7 EF Details With a few short light scratches. Dr. L. Feuchtwanger American Silver Composition 377 Broadway, New York. Very rare variety missing from many major collections. Ford, however, had a hoard of seven (3000-4000)

487 - LOW 251 / HT-275 R4 EF+ Hallock & Bates Corner of Burling Slip, New York. (75-100)

488 - LOW 261 / HT-286 R2 VF Weak near rims and a some light rim bumps. H. Law Baker English Bread, Twist & Fancy Cakes, New York.(50-75)

489 - LOW 267 / HT-165 R2 VF+ With reverse rim cud as usual. Wm. H. Milton Cassimeres, Boston. From the Arno Safran collection. (50-75)

490 - LOW 268 / HT-302 R7 NGC AU50 Edwin Parmele Bowling Saloon with well dressed gentleman holding a wine glass on the reverse with his motto Quite Comfortable. Very rare merchant with most of the five known examples damaged. One of the nicer examples is a nice VF but with a large punch mark, it sold for $4,400 in PCAC's June 1996 sale, sold again by PCAC in November 2006 for a fairly shocking $21,850 and finally failed to sell in Stacks sale of the Dice & Hicks collection in July 2008 with a starting bid of $13,800. This example is much nicer, is the finest certified and likely the second finest of just five known. From the John Ford collection earlier from Joe Levine June 1977. (16000-24000)

491 - LOW 270 / HT-303A R8 AU Trace Bright with a few light marks consistent with the grade, size and composition of this impressive token. Peale's Museum & Gallery of the Fine Arts, New York 1825 struck in White Metal. Popular merchant, exceedingly rare in this composition particularly this nicely preserved. From the Steve Tanenbaum, Richard Gross, Dice-Hicks and Chester Krause collections earlier from Stack's September 2009 where it realized $2,530. (2000-3000)

492 - LOW 271 / HT-363 R1 EF A somewhat uneven strike that is a bit weak near rims. J. & C. Peck Tin Machines, Troy New York with one of their machines pictured. From the Russ Rulau collection. (75-100)

493 - LOW 279A / HT-318A R4 VF Details But porous with a couple of digs. Squire & Merritt Ship Chandlers and Rope Makers, New York. A very confusing merchant to attribute with many die and sub varieties. Adding to the confusion Rulau's listing and spacing where the descriptions of the varieties proceed the listing rather than follow it as in other sections of his book. This is die combination 1-A with a Plain edge and 175 scratched rather then counterstamped. From the Russ Rulau collection. (50-75)

494 - LOW 279A / HT-318A R4 AU Squire & Merritt Ship Chandlers and Rope Makers, New York. This is die combination 1-A with a Plain edge and 175 counterstamp. Rarely seen this nice. From the John Ford collection. (300-400)

495 - LOW 279B / HT-319 R7 VF+ Squire & Merritt Ship Chandlers and Rope Makers (175) South St., New York. With 175 of address counterstamped as usual for this scarce variety. Die combination 1-A struck on a much thicker than normal planchet well over 2mm that weighs 9.3 grams not quite up to the 12 grams listed in Rulau. From the John Ford collection. (200-300)

496 - LOW 283B / HT-325 R4 VF+ Squire & Merritt Ship Chandlers and Rope Makers (175) South St., New York. With 175 of address counterstamped as usual for this scarce variety. This is die combination 3-B with a reeded edge. From the John Ford collection. (200-300)

509

498 - LOW 300 / HT-181 R1 EF Details Slightly porous mostly on the normally struck side. Full brockage mint error. John J. Adams, Taunton Massachusetts with running boar pictured. A very visual and impressive brockage. From the Steve Tanenbaum collection earlier from Charles Litman. (2000-3000)

499 - LOW 305 / HT-101 R3 AU Davenport Combs and Perfumery, New Haven Connecticut. Underrated merchant, an EF brought $467.50 in our June 2011 auction. (500-750)

500 - LOW 318 / HT-345 R4 EF Details With a few small digs. Hiram Judson Silver Smith, Syracuse New York struck on a Thin Reeded edge planchet. Much scarcer than the following. (75-100)

501 - LOW 318A / HT-346 R4 FINE+ Hiram Judson Silver Smith, Syracuse New York struck on a Thick Plain edge planchet. (50-75)

502 - LOW 320 / HT-381 R5 NGC XF40 BN Smooth, well struck with nice centering and attractive brown color all somewhat unusual for this merchant. A. Loomis Foreign Liquors and Wines, Cleveland Ohio. A raw EF brought $854.70 in our December 2010 auction. From the John Ford collection earlier from Allen Brand February 1955. (750-1000)

503 - LOW 321 / HT-295 R2 AU James G. Moffet Brass Founder, New York with charmingly crude die work featuring a backwards N and S in E Pluribus Unum. An AU+ sold for $165 in our July 2007 sale. From the Arno Safran collection. (150-200)

505 - LOW 328 / HT-171 R1 EF Alfred D. Willard, Boston Massachusetts with vintage comb pictured. (50-75)

506 - LOW 344 / HT-118 R6 VF Details But quite porous. Gasquet Parish & Co., New Orleans Louisiana. Rare and underrated merchant. A lightly cleaned EF realized $2,000 in our July 2006 sale. More recently a stained and scratched sharp EF that was not nearly as porous as this example sold for $3,055 in Stack's August 2013 offering of the Ford collection. (750-1000)

507 - LOW 358 / HT-418 R4 VF Details But with a bold counterstamp of eagle on reverse flattening some of the reverse. Spering, Mixsell & Innes Philadelphia a very scarce merchant. A VF with residues sold for $137.50 in our May 2004 sale. (100-150)

508 - LOW 360 / HT-280 R8 NGC F12 BN Benjamin Hooks 276 Broome Street Corner Allen St. with bust of Benjamin Franklin signed Bale on reverse. 509 - LOW 365 / HT-339 R8 NGC XF45 BN Richard Williams Union Hall New York Good For Refreshment At The Bar with Odd Fellow heart in hand symbol on obverse and signed Bale on reverse. Despite Ford having three examples this is a very rare merchant. We can only account for six, including the EF Rulau plate specimen that realized $8,050 in the July 2008 Dice & Hicks sale and Ford's NGC AU58 brought $9,400 both offered by Stacks. From the John Ford collection earlier Christensen February 1963. (4000-6000)

639 - MILLER PA 391 MS62 60% Red with obverse struck through a thin wire just under the &. Pennypacker & Sibley. with blank reverse struck in Copper with Plain edge. Long attributed to Philadelphia, Rulau questions his own placement in the 1845 to 1860 time period noting no directory listings exist through 1860. Perhaps the true answer is it is not Philadelphia at all. While Wm. G. Pennypacker did have earlier connections and business dealings in Philadelphia, he along with D. H. Pennypacker, Josiah Sibley and others formed and operated Pennypacker & Sibley a Stave Mill in Van Wert Ohio around 1863. Sibley eventually left the firm around 1870 and became part of Eagle Stave Company also of Van Wert. By the die style this piece is likely late 1860's. Further research is needed. Regardless a very rare variety. A stained EF example in Brass counterstamped 1 brought $86 in our February 2014 auction. From the Richard Crosby collection earlier from PCAC May 1977. (150-200)
